**BINDING
AGENT
SPREADER**

Binding Agent Spreader is a well-designed and reliable machine that you need for surface stabilization. Thanks to its automatic control system, this mobile spreader ensures that the filler, cement, lime etc. like powder materials spread on the surfaces at desired ratios. Its functional design guarantees the best spreading performance as well as easy usage.

MAIN FEATURES

- ◆ **Spreader consist** of 3 spreading feeders which can be separately operated, allows users to work with different spreading widths.
- ◆ **Proportional control** system provides automatic capacity control (lt/m²) for spreading operation independent from vehicle speed and spreading width.
- ◆ **Material filling** with bulk cement trailers or optional filling with big bags.

MACCHINA ITALIANA

MAIN FEATURES

- ◆ **Water-proof** and damp-proof design prevents dampness of the material in the tank.
- ◆ **Easy and user friendly** operation with specially developed 7" LCD screen operators panel.
- ◆ **Binding agent spreader** is produced with a container capacity between 12 m³ -20 m³ for tractive units (2, 3 or 4 axles).
- ◆ **Ideal machine** for soil stabilization at large-areas, with high capacity spreading of binding agents.
- ◆ **Spreading quantity** can be adjusted between 5 -40 lt/m² automatically with speed controlled output.
- ◆ **The high-end spreader** is suitable for use in both soil stabilization and cold recycling.
- ◆ **Spreading and even** distribution of the binding agent is controlled electronically.
